

**College Readiness Pilot Project between
South Central College & Area High Schools
Advancer Online Courseware Participation Contract**

Student Name: _____ **Grade:** _____

School Name: _____

School Teacher/Counselor Name: _____

Teacher/Counselor email or contact number: _____

Student/Parent/Guardian Permission: (Check all that apply)

____ I give my son/daughter permission to participate in the Advancer On-line Courseware pilot project through my high and South Central College (SCC). Advancer online courseware uses lessons online that are designed to improve skill levels in reading and or math. **(Must be completed & signed if student is under 18 years of age.)**

(Advancer Courseware is a companion to the Accuplacer assessment that the Minnesota State College and University System uses to determine a student's readiness for college-level reading, writing and math. Your scores on the Accuplacer assessment indicate that additional skill development is needed prior to high school graduation to assist you in being ready for college entrance.

By choosing to participate in the Advancer courseware and improving your skills now, you will improve your college entrance assessment scores and decrease the need for having to take college readiness courses once you enroll at a 2 year community or technical college in Minnesota.)

____ I agree to participate in the Advancer On-line Courseware lessons for the next 90 days and also agree to complete a post-test to determine the skills that were learned.
